

PRODUCT DATA SHEET

Fibre Patch Cords

Introduction :

Fibre patch cords also known as leads offer a highly reliable way to transmit signals, which is widely used in telecom industry. When selecting the correct fibre patch lead for a data centres or network, it may be a challenging task since there are various types on the market

Specification :

- Fibre Types » 9/125, 62.5/125, OM2, OM3, OM4
- Cable Types » Duplex, Simplex, Flat Duplex
- Connector Types » SC, LC, ST, PC, MTRJ, MU, FC, ESCON, E-2000, SMA
- End Face Finish » PC, UPC, APC

Features :

- Available in Multimode & Singlemode versions.
- Any connector options.
- Factory terminated & 100% tested for insertion loss & return loss.
- Individual test sheet and unique product identification number for traceability.
