Introduction :

Our MUTOA (Multi-User Telecommunications Outlet Assembly) boxes provide a flexible and efficient solution for structured cabling in open-plan office environments, data centres, and commercial spaces. Designed to support 6, 8, or 12 ports, our MUTOA boxes offer a centralized connection point for multiple workstations, reducing cable congestion and improving network accessibility.

Key Features & Performance :

- **Available in 6, 8, or 12 Ports** – Accommodates various user densities for scalable deployments.
- **Supports Cat6 & Cat6A Cabling** – Ensures high-performance data transmission.
- **Durable, Compact Design** – Built for easy mounting on walls, ceilings, or under desks.
- **Optimized for Moves, Adds & Changes (MACs)** – Reduces disruption and cabling complexity.
- **Enhanced Cable Management** – Minimizes clutter while maintaining a structured cabling layout.

Applications :

- **Open-Plan Office Spaces** – Ideal for environments with frequently changing workstation layouts.
- **Call Centres & Shared Workspaces** – Provides a central access point for multiple users.
- **Education & Healthcare Facilities** – Supports flexible and adaptable network connectivity.
- **Data Centres** – Organizes and streamlines network connections efficiently.

Key Benefits :

- **Flexibility & Scalability** – Easily accommodates network growth and layout changes.
- **Reduced Cable Clutter** – Streamlined cabling improves airflow and aesthetics.
- **Cost-Effective Solution** – Minimizes the need for excessive horizontal cabling runs.
- **Quick & Easy Installation** – Simplifies setup and maintenance in high-demand environments.

Our MUTOA boxes offer a practical, efficient, and scalable solution for structured cabling, ensuring seamless connectivity and easy adaptability in dynamic network environments.
