

PRODUCT DATA SHEET

Structured Cabling Faceplates and Adaptors

Introduction :

RJ45 Adaptors : Supports both Cat5e, Cat6, and Cat6a RJ45 connectors, ensuring compatibility with various cable types for structured cabling systems.

Material : High-quality, durable plastic for robust performance and longevity.

Compatibility : Designed to snap into standard keystone faceplates or patch panels, ensuring flexibility for installations in both residential and commercial environments.

Flush-Mount Faceplates : Designed for flush-mount installations, ensuring a smooth, clean finish with the wall surface.

Surface-Mount Faceplates : Compact box-style enclosure for surface-mount applications where in-wall cabling is not feasible. Available in single-port and multi-port configurations.

Compliance : Compliant with ANSI/TIA-568 standards for structured cabling, ensuring network reliability.
