

PRODUCT DATA SHEET

30 Bay Charging Cart (Aluminium Frame)

Introduction :

Introducing our 30 Bay Aluminium Frame Charging Cart, a mobile unit designed to charge both laptops and tablets. This cart provides a secure and organized solution for storing and charging devices, ensuring they are safely locked away when not in use.

Applications: Perfect for educational facilities such as schools, universities, laboratories, and training facilities, this charging cart ensures devices are always ready for use. It supports efficient device management in environments where multiple devices need to be charged and stored securely.

Features:

- Holds up to 30 Tablets
- Mobile unit for easy transportation between rooms
- Secure storage with lockable doors
- Integrated charging capabilities for simultaneous device charging
- Sturdy construction for durability in high-use environments
- Individual slots for each device to prevent damage and tangling
- Ventilated design to prevent overheating during charging
- Power management system to ensure safe and efficient charging
- Ideal for schools, universities, laboratories, and training facilities
- Easy access design for quick loading and unloading of devices
- Cable management features to keep charging cables organized and tangle-free
